## **DETAILED ACTION**

## Response to Amendment

1. Applicant's proposed amendment to claim 16 raises new issues that would require further consideration and a new grounds of rejection. In particular, the claim has been revised to state that only one component of the listed four need be present, whereas previously all four components were necessary. That is a clear change in the scope to the claim. With respect to claim 10, it has neither been amended nor has the applicant explained why the examiner's previous grounds of rejection of 3-10-2004 were in error. Claim 10 remains rejected for the reasons set forth in the final rejection.
